

07 October 2021

Dear Parent/Carer

I am writing to outline the assessment arrangements for Year 7 science. All Year 7 students will be sitting three science assessments this year. These will be completed in December, April and June. The examinations will cover work that your child has studied so far in Year 7. In addition students will be completing other in class assessments throughout Year 7.

You can help your child to prepare for their KS3 assessments at home with a Science Revision Workbook. **The library will be placing an order from CGP for KS3 science complete study and practice workbooks.** If you wish to purchase a workbook through the library please log on to **Parent Pay** before **Friday 22 October** and select a KS3 revision and practice workbook. We are able to offer these workbooks at the discounted price of £6 per book (which is 30% less than the public price). Once the books have arrived they will be available from the library for your child to collect at lunch or break on their library day.

Students can also revise online on the BBC bitesize website: <https://www.bbc.co.uk/bitesize/subjects/zng4d2p>  
The results of each examination will contribute towards your child's end of year level, which will be used to determine the most suitable Year 8 set for your child. Previous assessment scores, homework and class work will also be taken into consideration when placing students into their Year 8 sets.

Please do not hesitate to contact me on 01275 373737 or [lewiss@skdrive.org](mailto:lewiss@skdrive.org) if you have any questions.

Yours sincerely

S Lewis
