

Dear future me

18 of March 2022

Dear me,

I am writing to you in March 2022. I am a 12 year old girl. You are much older now and hopefully wiser although sometimes that might not be the case. I hope you have managed to achieve your dreams and goals as you would have planned.

At the moment there is a virus named COVID-19 which has killed many people over the last two years and I hope when you are older all this has gone as it is not something any of us want in this world. Living in a pandemic lockdown was like a nightmare for so many of us not being able to see friends or family or not going to school either and learning from home was truly difficult causing anxiety and worries throughout the pandemic. I hope now you are reading this letter COVID-19 will definitely be a part of history. Just when life was starting to get back to normality there is a military invasion of Ukraine where Russia is dropping bombs and killing so many people that live in Ukraine. The reason Russia is invading Ukraine is because Russia wants their land back as they use to own Ukraine. Russian air-crafts have bombed so many things such as hospitals, schools, homes and a lot more. Many countries are doing their best to help in many ways.

I am hoping as you are now older all of the above has stopped and life has found a way of continuing. Anyway I hope in the future when I read this letter everything has changed but for now just live as normal as possible.

From Maisie Hasell
