

21 May 2018

Dear Parents/Carers,

Our core focus at St. Katherine's is to create the necessary conditions to allow all students to be educated in an environment conducive to effective learning. Developing our climate for learning is a key strand within our [Quality Improvement Plan](#). Feedback from parents, students and staff has indicated that we need to achieve greater consistency in our climate for learning across every lesson, every day.

From September 2018, we will be introducing Ready to Learn to ensure every classroom reflects our high standards and expectations without disruption. We want all our young people to value their learning time and remain focused in every lesson. Ready to Learn will allow students to learn more and make greater progress. It will remove all forms of disruption, while ensuring that every student understands what is expected. Ready to Learn will encourage every student to take full responsibility for their actions and enable staff to deliver engaging, creative and enjoyable lessons.

I would like to invite you to a presentation evening on **Monday 4 June between 6.30-7.30pm** where we will outline how Ready to Learn will work. Should you be unable to attend, the presentation will be shared online following the meeting. Should you wish to offer any feedback on Ready to Learn, please complete the form - [Ready to Learn Parent/Carer Feedback](#).

Please confirm your attendance at the presentation evening by telephone on 01275 373737 or email school@stkaths.org.uk.

I look forward to sharing our plans with you.

Yours sincerely

Justin Humphreys
Head of School
